› Bring your life

Whether it's exploring spectacular nature in the great outdoors or travelling the world with family and friends, we all have a passion for enjoying an active life.

At Thule, we share your desire to spend more time enjoying our passions – which means less time worrying about how to bring all the stuff we need. In this catalogue we've collected all our recreational vehicle accessories, but that's just a small part of everything that's Thule. Thule is also a part of Thule Group, a collection of international brands that have one common mission: develop smart ways to simplify your active life.

Wherever your passion takes you, whatever you're bringing.
With Thule products, you're free to live your active life to the full.

Technical Specifications

› Awnings

Thule awnings are designed to provide shade on sunny days and to serve as a shelter on rainy days. We offer a wide range of awnings with unique features in order to fit any vehicle type.

A solution for every vehicle

Travelling with your recreational vehicle means freedom: you can go wherever you want, whenever you want. Make a stop at the most wonderful places and enjoy outdoor life. A Thule awning is the perfect way to have a sheltered space next to your vehicle and it also provides shade and protection against the weather elements. You can easily mount awning accessories for different purposes in just a few simple steps! Thule offers awnings in 3 different categories to perfectly fit your vehicle and personal needs.

Wall-mounted Awnings

- Most common installation on the vehicle wall
- Large range of adapters available, developed together with and approved by RV manufacturers, to fit any vehicle type
- Easy mounting in the awning rail of a caravan

Roof-mounted Awnings

- Installation on top of the RV
- Selection of adapters for specific manufacturer's models and most popular vans available
- Better integrated on the current RV design
- Alternative in case of lack of space or width restrictions

Rail-mounted Awnings

- Easy installation, no brackets needed: fits into the caravan rail
- Not permanent: you can still switch between awning and canopy
- Very light compared to the wall and roof awnings

Why choose a Thule awning?

Ease of use

Manual awnings have a telescopic hand crank for opening and motorised awnings have a remote control or a switch for effortless opening. Thanks to the Thule Quick Release system, the support legs can be released on demand to prevent them from falling during the set-up. All support legs are dropped vertically to reduce the risk of damaging your vehicle. Easily adjust the legs to the right heights with the user-friendly Thule Quick Lock system.

Superior product stability

Thule Omnistor awnings are equipped with sturdy tension arms in combination with an innovative support of the roller tube to create a perfectly tensioned awning fabric. They also increase resistance to wind for safer usage. Depending on the awning type, lengths from 4.00 m and more are supplied as standard with an integrated tensioning system or with an extra tension rafter to keep the fabric even tighter. All our awnings are tested in various weather conditions for optimal stability.

Appealing design

Thule Omnistor awnings have a timeless design that perfectly match any vehicle type. Depending on your awning type, you have the choice between following cassette finishes: anodised, white, anthracite or cream.

A leading brand in awnings for years

Wide range of accessories

Thule offers different accessories to extend your awning to suit your lifestyle. For example the Thule Smart Panels are the perfect solution if you want to create privacy and in the meantime be protected from weather elements such as sun, rain and wind. Add more outdoor living space by using a Thule awning tent.

Preferred awning brand

Thule is the elected best brand in awnings for years. Thule has a large range of installation brackets and adapters available, developed together with and approved by the recreational vehicles manufacturers.

ADVICE - In case of rain, put one support leg lower so that the water can easily drain off

Awning finishes

Cassette finishes

All Thule Omnistor awnings are made of sturdy aluminium profiles that guarantee long lasting safety and reliability. Thule awnings are tested under the toughest conditions to ensure they surpass current standards.

Anodised

White

Anthracite

Cream

NOTE - Cassette finishes Anthracite and Cream are only available with fabric finish Mystic Grey (31). Please refer to each awning type to find out the possible cassette and fabric finishes

Fabric finishes

The top quality PVC fabric is printed on both sides and has a coating to keep the fabric colour fixed, watertight, washable and durable. Depending on your awning type, you can choose different patterns for your awning fabric.

31 - Mystic Grey

32 - Sapphire Blue

04 - Alaska Grey

03 - Blue Sky

22 - Uni Grey

NOTE - Fabric finishes Alaska Grey (04), Blue Sky (03) and Uni Grey (22) are available on request with a longer delivery time

UV Protection

The coating not only ensures a high degree of scratch and fade-resistance, but also increases UV and heat-resistance.

Long lasting reliability

Top quality PVC fabric composed of 5 layers to ensure the awning is watertight, washable, durable and resistant to scratches.

- 1 - PVC top coat: ensures colour protection and scratch resistance
- 2 - Vinyl with printed pattern
- 3 - Strong layer in polyester scrim

Wall-mounted Awnings Thule Omnistor 5200

The new standard for RV awnings

Thule Omnistor 5200 awning perfectly fits any vehicle type. Its design and look match the contemporary recreational vehicle designs and is better integrated on the vehicle sides. The awning is up to 3% lighter than its predecessor and is available in 8 lengths from 1.92 m to 5.02 m with a maximum projection of 2.50 m.

Operated manually or with a motor

An optional 12 VDC motor with manual override allows you to operate awning lengths from 3.00 m and more without any effort. The motor can easily be installed retrofit as an accessory on a manual Thule Omnistor 5200 awning (+ 1 kg).

Perfect fabric tension

Sturdy spring arms with patented integrated tension arms ensure a perfectly tensioned awning fabric for increased wind resistance. The patented tension arms are standard integrated for awning lengths from 4.02 m and more and are optional for a 3.02 m or 3.52 m awning length.

User
instruction

Wall-mounted Awnings Thule Omnistor 5200

Thule Motor Kit TO 5200 - An optional 12 VDC motor with manual override mechanism allows you to operate awning lengths from 3.00 m and more without any effort. Control is made with a switch through one touch command. The motor can easily be installed retrofit on a manual Thule Omnistor 5200 awning. Only 1 kg additional weight and 3 cm additional length compared to a manual awning.

Thule Pitch System - The incline of the awning fabric can be set as you please to easily open the door of your vehicle without touching the awning fabric.

Optimal closing - An easy roller tube adjustment system on the side opposite to the gear assures a perfect closing of the cassette, even after years of usage.

Wall-mounted Awnings Thule Omnistor 8000

Largest wall awning on the market

Thule Omnistor 8000 awnings are available in 5 lengths from 4.00 m to 6.00 m with a projection of 2.75 m. The awning cassette is available in anodised, white, cream and anthracite.

Operated manually or with a motor

The optional 230 VAC motor with remote control allows you to operate the awning without any effort. Settings are programmed digitally to ensure a perfect closing of the front profile. A safety device has been created to operate the awning in case of electricity failure. The motor can easily be installed retrofit as an accessory on a manual Thule Omnistor 8000 awning (+2 kg).

Perfect fabric tension

Thanks to Thule's unique integrated tension rafter in the spring arm, the fabric is always well tensioned. The spring arm, reinforced with a double steel cable, automatically deploys the tension rafter to ensure the awning stays stable and resistant to wind.

Wall-mounted Awnings Thule Omnistor 4900

The lightweight awning

The Thule Omnistor 4900 awning is available in 5 lengths from 2.60 m to 4.50 m with a maximum projection of 2.50 m. The awning cassette is available in anodised, white and anthracite.

Lightness and stability

The awning is equipped with a small roller tube support which results in a huge weight reduction, while being stable and having an optimal fabric tension. Awning lengths 4.00 m and 4.50 m have a tension rafter supplied as standard.

Smart innovations

The oval support legs are dropped vertically to reduce the risk of damaging the vehicle wall.

Optimal closing

An easy roller tube adjustment system on the side opposite to the gear assures a perfect closing of the cassette, even after years of usage.

Wall-mounted Awnings Thule 3200

Manual roll-up box awning for compact vehicles

The Thule 3200 awning is available in 5 lengths from 1.90 m to 3.00 m with a projection of 2.50 m. The awning cassette is available in completely anthracite finish or anodised with anthracite bottom and black end caps.

Mounting

Ideal for direct mount on selected range of minivans and roof rack installation on cars. The awning brackets need to be bought separately.

One-person operation

The awning can be set up by only one person. Open the cassette and take out the tension arms. Roll out the awning manually and set up the support legs. At last, connect the tension arms with the support legs and create tension.

Large projection

All awning lengths have a projection of 2.50 m, the largest projection on the market within its category.

Wind protection

New

Thule Fabric Clamps

309698 - These clamps provide a more secure fastening between the awning fabric and the tension rafter or blocker rafter to prevent the unpleasant noise of a flapping awning fabric due to wind. The clamps have an universal fitting on most rafter profiles, just click it on the rafter, put the fabric in between and tighten with the handle.

FITS

- Oval side blocker rafter
- Thule Tension Rafter G2
- Square telescopic tension rafter TO 1200

NOTE - A set contains 2 clamps.
You can use up to 2 clamps on one side of the awning

Thule Tension Rafter G2

An additional rafter ensures an optimal tensioned awning fabric for a better wind resistance. The rafter is made from durable anodised aluminium profiles in combination with high impact plastics. No heavy manpower is needed for the installation.

*Fits only at the side of the awning, not at the middle

Easy installation in only 3 steps

- 1 - Open your awning.
- 2 - Place the rafter into the awning. This is effortless thanks to the smooth integrated spring.
- 3 - Slightly roll-up the awning fabric until the rafter is blocked. Perfect tension is reached when the two black parts touch each other.

Thule View Blocker G2 - Side

Thule Windscreen

Awning fixation Thule Sun Blocker G2

Protection against the sun

Front and side privacy panels for Thule Omnistor awnings to let the breeze in while keeping the sun out, without losing your view. Available in different sizes depending on your awning length, projection and mounting height.

Fabric material

Made of micro-aired screen fabric, a transparent and light screen fabric.

Installation

The front panel is suitable for all Thule Omnistor awnings and easily slides into the awning lead rail. The side panel slides into an aluminium rafter installed between the awning's cassette and lead rail. The side panel can be installed on both sides of the awning with the same rafter.

Combination with an awning tent

Combine easily the Thule Sun Blocker G2 side panel with a Thule QuickFit awning tent for more comfort. The Thule Sun Blocker G2 front panel can be used in combination with the Thule Residence G3 awning tent with the optional profiles. See p.56 to 61

Add to your Thule Sun Blocker Side

Thule Fabric Clamps

These clamps provide a more secure fastening between the awning fabric and the blocker rafter to prevent the unpleasant noise of a flapping awning fabric due to wind. See p.32

Storage

Thule Luxury Blocker Bag

301568 - Luxurious black bag to store your tension rafter, panel and fixation material - LxWxH: 130 x 20 x 20 cm.

Awning fixation Thule Sun Blocker G2

FIT GUIDE - See p.136 to 138

Modular system

Combine easily the Thule Sun Blocker G2 panels with other Smart Panels. The front panels can be rolled up when they are not in use.

User
instruction

Awning fixation Thule Rain Blocker G2

Protection against rain and wind

Front and side privacy panels for Thule Omnistor awnings to protect against rain and wind. Each panel has a large transparent window keeping the light coming in to create a spacious feeling. Available in different sizes depending on your awning length, projection and mounting height.

Fabric material

Made of high quality transparent PVC fabric.

Installation

The front panel is suitable for all Thule Omnistor awnings and easily slides into the awning lead rail. The side panel slides into an aluminium rafter installed between the awning's cassette and lead rail. The side panel can be installed on both sides of the awning with the same rafter.

Combination with an awning tent

Combine easily the Thule Rain Blocker G2 side panel with a Thule QuickFit awning tent for more comfort. See p.60

Add to your Thule Rain Blocker Side

› Tents

A tent gives you the perfect outdoor living space. The highly versatile range of Thule awning tents offers an option to suit every desire.

Why choose a Thule Tent?

Easy installation

Long stay: Thule Veduta, Thule Panorama or Thule Residence G3

For easy installation, your awning transforms to become your roof, making it quicker to set up your tent. The tent consists of 3 panels: 2 sides and 1 front, all which connect to the awning. The side panels also connect to your vehicle for a perfect sealing. The front panel slides into the awning lead rail, creating a water-resistant room.

Stability and security

Depending on the awning tent type, Thule uses different durable high quality fabric materials: Airtex, PVC or Ripstop that provide wind and water tightness. Moreover all Thule awning tents are tested in various weather conditions to guarantee optimal stability and security.

Innovative design

Short stay: Thule QuickFit

This tent exists of 1 piece and takes only 15 minutes to set up. Slide it in the caravan rail or in an additional rail below your awning cassette and fix it to the awning lead rail. In this way you create a double roof which offers a good insulation to keep the tent and vehicle cool. Side windows are provided with mosquito mesh.

Thule awning tents have a contemporary design in line with the awning design. Thanks to the combination of neutral colours: black, white, grey and silver, they suit all awning fabric colours. Large windows invite maximum light and create an extra feeling of spaciousness. Permanent ventilation openings reduce condensation.

Modularity

Thanks to the clever design, the awning tents can be installed completely but most of the panels are unzippable and removable to create door openings on different sides.

Thule Veduta

- The front panel is easy to install as one complete piece with two or three window panels
- The 4 window panels are unzippable
- One panel has two integrated door openings and can be placed anywhere you want

Thule Panorama

- You can fully remove the large front and side windows or open them vertically to use as a door, or horizontally to let the fresh air in

Thule Residence G3

- The window panels can be rolled upwards
- Front panels starting from 3.50 m length have a door opening on both sides and can also be rolled up separately for easy entrance
- It is possible to add accessories in the optional rail at the front panel

Thule QuickFit

- All sides are fully zippable
- They can be taken away to create an open porch, can be opened sideways to create a door on all sides, left or right and can be opened from top to bottom to create an open window

Tents

Thule Veduta

Awning tent especially designed for caravans

The Thule Veduta awning tent is available in four lengths and can only be used in combination with a Thule Omnistor 6300 | 6200 roof awning mounted on a caravan.

Installation

The awning tent is delivered with claming profiles to mount the side panels and connect them with the awning fabric for a perfect roof sealing. The side panels slide into the claming profiles and the front panel slides into the awning lead rail. Both panels are combined with a zipper for optimal closing. The sloping front panel offers a large internal living surface and creates an extra feeling of spaciousness.

Fabric material

AIRTEX® is perfect for solar protection applications. This light fabric is 100% polyester fabric, which is coated with acrylate on one side and impregnated. The special coating gives AIRTEX® a distinctively textile character.

Add to your Thule Veduta

Thule Curtains

301565 - Easily create more privacy by adding curtains.

Tents

Thule QuickFit

Universal fitting on awnings with a projection from 2.50 m

The Thule QuickFit awning tent is available in 3 standard lengths, suitable for different mounting heights and has a special model for the Ducato H2 van.

Installation

The tent is in one piece and doesn't need additional fixation profiles. It easily slides into the caravan rail or into an additional rail below the awning cassette, and is fixed to the awning lead rail. The front canopy is installed with flexible arch tubes to provide additional shade.

Fabric material

Made out of Ripstop fabric: a lightweight woven and tear-resistant material used for aeronautical engineering. This material also has a strong water resistant coefficient. Because the tent is connected with an awning, the double roof offers a good insulation to keep the tent and vehicle cool.

Add to your Thule QuickFit

Thule Mosquito

Zippable panel to replace the standard front or side of the Thule QuickFit tent. Made of mosquito mesh to create additional ventilation.

Thule Side Tensioning Kit

307053 - Set of 2 fiberglass poles to ensure a better sealing of the Thule QuickFit tent with the vehicle wall.

› Bike Racks

No matter which vehicle you have and regardless the type and number of bikes you want to take along, there is a Thule bike rack that perfectly matches your needs and that will exceed your expectations.

Why choose a Thule Bike Rack?

Safe and high quality

Thule bike racks are extremely safe for several reasons: made of the highest quality materials, tested to the highest standards in the market and equipped with integrated safety features such as: a platform lock system, shock absorbing components, bike holders with integrated or optional locks, ...

A leading brand in bike racks for years

Load advice

- Load the heaviest bike first and closest to the vehicle
- The lightest bike should be fixed outwards
- Set the bikes crosswise on the carrier to find the best position, rotate the steering wheel 90° if needed
- Always secure all bikes to the bike rack frame using the included safety strap

Appealing design

Thule bike racks distinguish themselves by their contemporary design that perfectly matches any vehicle.

Thule Bike Holders with AcuTight Lock

As from January 2020, most RV bike holders will be replaced. The new bike holders will be provided with a lockable Thule AcuTight torque limiter knob that clicks when optimal torque is reached.

For models:

- Thule Excellent - Thule Elite G2 - Thule Caravan Superb / Superb XT / Smart - Thule Lift V16

Thule Test Center™

Thule Test Program™ as part of the development process. Product go through extreme testing before they can bear the Thule logo.

Smart innovations

Each Thule bike rack has smart innovative features making them easy to use and simple to install: wheel holders with pump buckle tensioning system, ergonomic Tilt-Lock system, sliding rails, fast click connections, ...

Bike holders

Soft touch bike holders with integrated or optional locks.

Platform lock system

Lockable platform to avoid movement during transport.

Pump buckle tensioning system

Easy, secured fastening of the bike wheels.

Tilt-Lock system

Easy to lock the tiltable platform onto the base frame.

Sliding rails

Sliding rails make it easier to find the best position for your bikes.

Fast click connections

Fast click connections make the installation easier and faster.

Designed for outdoor adventures

Add some attitude to your recreational vehicle with the Thule bike rack range in black. The black aluminum frame is paired with black bike holders, creating a bike rack with a design language of its own – and features that will take your bikes anywhere. Made for people who want to have a bike rack with a sporty look.

Rear Wall-mounted Bike Racks

Thule Lift V16

Bike rack with a height-adjustable platform

This bike rack is attached to the rear wall of a motorhome or caravan and is suitable for the transport of two (electric) bikes thanks to its load capacity up to 50 kg.

Easy load and unload

The platform of the bike rack can be lowered by means of a crank, which makes it easier to load and unload the bikes. Choose the motorised version for more ease of use. The 12V motor lowers the platform in just 40 seconds.

Safe and stable

Loading and securing the bikes takes no effort thanks to the lowered platform. The adjustable wheel holders keep your bikes in position and are easy to tighten with the straps with pump buckle tensioning system so that the bike wheels are securely fastened. The bike holders are attached to the bike frames and are lockable to prevent theft. You can transport a third bike by adding the optional rail kit.

Add to your Thule Lift V16

Thule Lift V16 3rd Rail Kit

307370 - To position a 3rd bike on the bike rack.

Thule Lift V16 Elongation Kit

307371 - Makes it possible to extend the mounting range to 95-150 cm.

Rear Wall-mounted Bike Racks Thule Excellent

Elegant bike rack with a large load capacity

This bike rack is attached to the rear wall of a motorhome or caravan and is available in two models: a standard and short version. Both carriers are perfectly suitable for both regular bikes, mountain bikes and e-bikes thanks to their load capacity up to 60 kg.

For each bike

The wide rails are slidable both in depth and from left to right to find the best position for your bikes. The adjustable wheel holders keep your bikes in position and are easy to tighten with the straps with pump buckle tensioning system to firmly secure the bike wheels. The bike holders are attached to the bike frames and are lockable to prevent theft. You can transport a third or fourth bike by adding the corresponding optional rail kits.

Finish in black

The standard model is now available completely in black for a sleek and modern look and is extendable with a third and fourth bike with the optional rail kits.

Extra strong aluminium guarantees stability and reliability.

Bike holders - Easy mounting of bikes through detachable bike arms with lockable Thule AcuTight torque limiter knobs that click when optimal torque is reached.

Sliding rails - The rails are adjustable from left to right. They easily slide to make sure you find the best position for your bikes without effort.

Thule Elite G2 Standard

Thule Elite G2 Short

Lockable platform - The platform lock creates excellent dynamic force control and perfectly secures the bikes during transport. The platform is locked manually and can easily be clicked in the upwards position when not in use.

Wheel holders - Finding the perfect position for your bike is easy thanks to adjustable wheel holders. They enable you to transport all kinds of bikes with various sizes.

Thule Elite G2 One Bike

This model is the same as the standard bike rack with a shorter platform dedicated to transport only one bike with a maximum load capacity of 30 kg. This bike rack has been especially developed to meet the needs of the caravan user to aim for an equal load of two bikes on the caravan: one bike on the rear wall of the vehicle and one on the A-frame.

Thule Elite G2 One Bike

Rear Wall-mounted Bike Racks Thule Sport G2

Large range of bike racks for active lives

Find the perfect bike rack for your vehicle type. The Thule Sport G2 bike racks are attached to the rear wall of a motorhome or caravan and are available in different models. With a load capacity up to 50 kg you can easily transport 3 bikes.

Load of the bike

Thanks to the sliding rails you can easily find the best position for your bikes. The bike wheels are securely fixed with straps to avoid movement during transport. The bike holders are attached to the bike frames and are optionally lockable to avoid theft. You can take a third bike with you by adding the optional rail kit.

Add to your Thule Sport G2

Thule Sport G2 3rd Rail Kit

306577 - To position a 3rd bike on the bike rack.

Thule E-bike Rail Kit

306945 - To transport one e-bike on a Thule Sport G2 bike rack.

Garage-mounted Bike Racks

Thule VeloSlide

The smartest and most user-friendly bike rack for your RV garage space

With Thule VeloSlide, you get an ideal rack for transporting up to two e-bikes on your travels, using your RV's garage space to store them securely and protect them from the weather.

Loading and unloading couldn't be easier

When loading, the bike rack slides out up to 1.5 meter so you can lift your bike from the outside without having to bend awkwardly into the garage space. Thanks to the unique, patented and easy-to-grip handle, you can slide the rack into the garage space and automatically lock it securely - all with just one hand. When attaching your bikes to the rack you can easily optimise the position of each bike, both horizontally and vertically, with simple intuitive handlings even while the bike is on the rack and with no need for tools.

High-quality design

Thanks to the high-quality design and materials, you can be sure of safe, secure transportation of your valuable e-bikes, not to mention comfortable loading and unloading of heavy bikes - even when the bike rack is fully extended by 1.5 meter.

Add to your Thule VeloSlide

Thule Bike Frame Adapter

982003 - Frame adapter for easiest possible fitting of bikes with non-standard frames (e.g. ladies' bikes, downhill bikes).

Thule Brake Straps

306566 - By pulling the brakes, sideways movement is prevented and the bikes are more secured on the bike rack.

See more accessories p.98 to 99

Garage-mounted Bike Racks

Thule VeloSlide

New

Position bike - Bike's ideal position can be optimised without tools - even while the bike is already attached to the rack.

One-handed control - Unique and patented one-handed control.

Convenient handling - The bike rack slides out up to 1.5 meter. Comfortable handling of the bikes, all done while standing outside.

Thule VeloSlide Short

Overall length is 1.80 m; 15 cm shorter than the regular Thule VeloSlide. The bike rack slides out up to 1.35 m.

Bike holders - Adjustable soft-touch bike holders can easily be repositioned to align with the bike frame.

Mounting rails - The rack takes little space when not in use, it can be slid to the side or removed completely only leaving the mounting rails on the garage floor.

Thule VeloSlide

The platform can easily be clicked in the upwards position when not in use.

306574 - 2 bikes, extendable to 4

A-frame-mounted Bike Racks Thule Caravan Superb

Perfect bike rack to transport two e-bikes on the A-frame

The Thule Caravan Superb is mounted on the caravan A-frame and is available in two models: a standard and short version. The standard version is suitable for normal A-frames and the short version is suitable for both short and normal A-frames. Perfect to take along two heavy bikes with a total load capacity of 60 kg. You can transport a third bike on the standard version by adding the optional rail kit.

Access to the front locker

Thanks to the unique Tilt-Stop system the bike rack is tiltable even with loaded bikes. The maximum angle to tilt the bike rack can be set as you please. In this way the front locker of the caravan remains accessible.

Add to your Thule Caravan Superb

Thule Caravan Superb 3rd Rail Kit

307131 - To position a 3rd bike on the bike rack. Only for Thule Caravan Superb Standard.

A-frame-mounted Bike Racks

Thule Caravan Superb XT Black

Design and functionality for an A-frame-mounted bike rack

This A-frame-mounted bike rack attracts the attention by its unique design in black and offers all the functionalities to transport your bikes in a simple and safe way. Available in a standard and short version. Both carriers are suitable for the transport of heavier bikes thanks to their load capacity of up to 60 kg.

Load of the bike

The adjustable wheel holders keep your bikes in position and are easy to tighten with the wheel straps with pump buckle tensioning system to securely fasten the bike wheels. The bike holders are attached to the bike frames and are lockable to prevent theft. You can take a third bike on the standard version by adding the optional rail kit.

Access to the front locker

Thanks to the unique Tilt-Stop system the bike rack is tiltable even with loaded bikes. The maximum angle to tilt the bike rack can be set as you please. In this way the front locker of the caravan remains accessible.

Add to your Thule Caravan Superb XT Black

Rear Door-mounted Bike Rack Thule WanderWay

Top of the line trunk bike rack for the VW T6 minivan

Thule WanderWay is quick and simple to mount, thanks to the dedicated fit to the VW T6 minivan (does not fit VW T5).

Load capacity

It carries two bikes and it is possible to increase the load capacity to carry up to 4 bikes by adding a 3rd bike and a 4th bike adapter. Alternatively, the robust construction lets you carry two e-bikes with a combined weight of up to 60 kg.

Easy to use, easy to keep on your car

Everything on the Thule WanderWay is designed for ease of use. Load your bikes easily with easy-to-adjust rails that slide from left to right, and fasten the wheels securely with wheel holders with pump buckles. Once mounted, Thule WanderWay can stay on your car for as long as you like – it is possible to open the vehicle trunk without any mounted bikes.

Add to your Thule WanderWay

Thule WanderWay 3rd Rail Kit

911600 - To position a 3rd bike on the bike rack. Adjustable from left to right.

Thule WanderWay 4th Rail Kit

Rear Door-mounted Bike Racks Thule Elite Van XT

Lightweight bike rack with premium performance

The Thule Elite Van XT bike rack is very easy to install, it's clamped and glued on the rear door of the van and requires no drilling.

Two finishes

The bike rack is available in two finishes: anodised and black. The finish completely in black is perfect for vans with a sporty and off-road look.

Secure fastening

Adjustable wheel holders with straps with pump buckle tensioning system easily secure the bike wheels to avoid movement during transport. A distance of 20 cm between the rails enables a more easy load of the bikes. Doors can be opened with bikes on.

Perfect finish

Rubber sealing strips create a perfect finish even when the bike rack is taken off.

Add to your Thule Elite Van XT

Thule SmartClamp System

Easy-to-install roof rack base rails for vans*

This roof rack system is a versatile piece of equipment, that is emphasised by its wide range of additional accessories. Equipped with features allowing full optimisation for different activities, the strong endurance makes it possible to use during all seasons.

Thule SmartClamp System

Easy installation without drilling by mounting the smart clamps to the van's existing fix points. The two base rails are glued onto the vehicle roof and connected with the smart clamps to perfectly integrate with the vehicle roof.

Thule ProBar Flex

Option to add two or more load bars, allowing fitting of Thule ProBar roof accessories. The load bars can be positioned anywhere along the base rails in function of the combination of accessories on the roof. Available in 2 different heights and the load bars are lockable with a key to prevent theft.

Awning adapter

With or without the roof rack, the awning adapter can easily be mounted on the roof or on the roof rack without drilling. The adapter covers under the awning provide a complete finishing and integration with the vehicle.

Comfort Thule Steps

Easy access to your vehicle

A step allows you to easily enter your vehicle without effort, operated manually or via motor.

High quality

Extremely robust, the steps are made of corrugated anodised aluminium. Their quality exceeds European quality standard EN1646.

Extra safety

A switch for the connection of a warning lamp inside the vehicle is included as standard, making it impossible to drive away with the step still out.

Motorised steps

For even greater convenience, opt for the motorised steps. Each model is operated by a simple switch conform to the EMV and CE norms.

LED: maximum visibility

To be clearly visible under all conditions, each motorised slide-out step can be equipped with the optional Thule LED Kit for additional lighting.

Motorised steps

Thule Slide-Out Step V18 12V

FEATURES

- Different installation sets for vans available
- Width: 400 - 550 - 700 mm

Thule Single Step 12V

FEATURES

- Width: 460 - 550 mm

Thule Double Step 12V

FEATURES

- Width: 380 - 440 - 500 mm

New

Thule Slide-Out Step V19 12V Ducato | Jumper | Boxer Euro 6d-Temp

FEATURES

- Mounting set bought separately
- Width: 400 - 550 - 700 mm

New

FEATURES

- Mounting set bought separately
- Width: 400 - 550 - 700 mm

Accessories for motorised steps

• Thule LED Kit for Slide-Out Step:

Integrated and protected LED for optimal visibility of the footboard

301477 - Thule LED Kit for standard Slide-Out Steps (700 mm)

301826 - Thule LED Kit for Ducato | Crafter Slide-Out Steps (700 mm)

- **Relay:** ensures that the step is folded up when the motor starts
- **Step control box:** ensures that the step is automatically folded and unfolded when the door is opened and closed

NOTE - Our products are designed and developed for use in the recreational sector. As such, our products have not been tested and are not warranted for use in semi-professional or professional applications like busses, taxis, ambulances, etc

Manual steps

Thule Slide-Out Step Manual

FEATURES

- Width: 400 mm

Thule Single Step Manual

FEATURES

- Width: 550 mm

Comfort Thule Vent - Manual

Practical for fresh and healthy air

Natural airing: use the Thule Vent as a window

An aerodynamic design means you no longer need a spoiler. The roof light is mounted with special clamps so drilling is not needed, except for the opening itself.

Mosquito screen

The Thule Vent model includes a removable mosquito screen on the outside to keep dirt and vermin out.

FEATURES

- Dimensions outside: 47.2 x 45.9 cm
- Dimensions inside: 40 x 40 cm
- Weight: 3 kg
- All materials are made of impact and weather-resistant plastics

Add to your Thule Vent

Thule Ventilator Kit 12V

211001 - The optional ventilator makes it possible to motorise your manual Thule Vent.

FINISHES

200004 - White

200016 - Translucent

200018 - Transparent

Comfort Thule Vent - Motorised

Practical for fresh and healthy air

Ventilation: combine the Thule Vent with a motorised ventilator

Provides fresh air and ventilation instantly. A simple press on the button of the control panel adjusts the speed and rotation direction. Plus, it is silent and extremely low on energy consumption.

FEATURES

- Motor 12V
- Max. 20 m³/min.
- Ventilation and extraction
- Connection with a thermostat or motion sensor is also possible
- Weight: 4.5 kg

Security

In addition to 12 ventilation speeds, the Thule Vent has an energy saving function, a boost function and a safety mechanism to guard against excess voltage, incorrect connection and blockage.

FINISHES

200063 - White

200061 - Translucent

200065 - Transparent

Security Thule Levelers

The stable way to park

Top stability

Thule levelers offer a very large surface area for increased stability, making them ideal for wider tyres, with a maximum load capacity of 5 ton/set.

Striped area

The three heights make it easier to get your vehicle leveled. The striped area offers perfect grip between the tyre and the leveler.

FEATURES

- 3 heights: 44 - 78 - 112 mm
- Dimensions LxWxH: 560 x 200 x 150 mm
- Weight: 1.8 kg per leveler

307617
Black

INCLUDED

- Set of 2 levelers
- Storage bag

Locks

Thule Security Handrail

Thule Security Handrail

This handrail has a unique double locking design for extra safety. In the open position it offers a sturdy grasp handle to help getting in and out the vehicle and in its locked position it folds across the door giving added visible security.

PACK

White
- 308893 - Thule Security Handrail Door Frame Kit
White

Thule Security Handrail - Short Version

This sturdy and easy-to-fit handrail is ideal for a motorhome or caravan with a lower entry door. In the open position it offers a sturdy grasp handle to help getting in and out the vehicle and in its locked position it folds across the door giving added visible security.

PACK

- 307387 - 1 piece
White
- 308893 - Thule Security Handrail Door Frame Kit
White

Locks

Thule Universal Lock

3 different mounting options with the same lock

This high security lock fits all: motorhome, caravan and van. Possible to mount the same lock in three different ways. The surface-mounted installation is perfect for sliding doors, cabin doors or double rear doors of a van. The wall-mounted and the door frame-mounted installations are perfect for the entrance door, the garage door or the hatches of a motorhome or caravan.

FEATURES

- Large overlap with door for high security
- Strong rotating lock system
- The door frame bracket only requires a 3 mm gap between door and frame
- Fits left or right opening doors
- Available in the colours white and black

PACK

 301406 - 1 piece White	 301408 - 1 piece Black
 301419 - 2 pieces White	 301409 - 2 pieces Black
 301407 - 3 pieces White

Locks

Thule Inside-Out Lock G2

Secures the entrance door both from the inside and outside

High security lock for motorhome and caravan. This lock is mounted through the wall of your vehicle and secures the entrance door from the inside and outside. It's lockable from both sides but for your safety it can always be opened from the inside without a key.

FEATURES

- Limited space required for installation
- Large overlap with door for high security
- Can be installed horizontally or vertically
- Max. wall thickness: 45 mm

PACK

307339 - 1 piece
White

Locks

Thule Door Lock

This quality door lock is easy to use: just slide it sideways to lock and secure your doors. Mounted through the wall with a mounting plate, a sealing cover and bolts.

PACK

- 308888 - 1 piece
White
- 308890 - 3 pieces
White

Thule Door Frame Lock

This variant of the Thule Door Lock enables installation when there is no space inside the vehicle to fit the mounting plate. Instead of through the wall, it is screwed into the door frame.

PACK

- 308889 - 1 piece
White
- 308891 - 3 pieces
White

Thule Cab Lock

This lock secures your cabin door from the inside with a key. It offers a soft touch cover and matches the colour of your interior. Designed to fit the Fiat Ducato, Citroën Jumper and Peugeot Boxer. Special variant available for MB Sprinter and Renault Master.

PACK

- 309830 - 2 pieces: Ducato
Grey
- 309831 - 2 pieces: Sprinter
Grey

Thule Van Lock

This high security lock helps you to secure rear and sliding side doors. Smart and attractive, it fits all van models and matches the colour of your van's bumper and handles.

PACK

- 309832 - 1 piece
Black
- 309833 - 2 pieces
Black
